

Why you must not delay **Admission** any further?

The complete lockdown to break the chain of coronavirus is a much necessary step to prevent and control the outbreak of this disease. However, even when everything else has stopped, we are marching ahead with a change of our teaching methodology because we know that " Time and Tide waits for none".

We have shifted to **Online learning** through Zoom app for conducting our classes during this lockdown.

Learning materials for the new session are being circulated on mail and WhatsApp in absence of access to books of the syllabus for 2020-2021.

Fun sheets and additional materials, assignments and questions are also being made available.

Guided discussions are possible through frequent interactions with teachers.

Syllabus is moving as per schedule, so that learning is in no way affected during this time of crisis.

Time is of crucial essence in a student's life and learning once suspended or paused shall break the habit of absorbing new concepts and ideas.

A child needs to be productively engaged and made to stick to a routine if he is expected to grow and evolve positively in this time period. Being connected to school and teachers and a set routine has dramatic benefits in a child's psychological and social set-up.

Most importantly, you avail **50 % scholarship** on Admission Fee taken in the month of April 2020, since we know that every single paisa matters at this time.

So, what are you waiting for? Enrol your child, today.
